

## Cleaner- acidifier- disinfectant

### Product Description

Cid 2000 is especially designed for decontaminating drinking water and drinking water systems such as pipelines, tanks, drinking fountains and drinking troughs.

Cid 2000 has a triple action:

1. cleaning the drinking water system
2. disinfecting
3. optimising the pH-level of the drinking water

### Properties

Cid 2000 is a bactericide, fungicide, virucide and sporicide\*.

Composition: according to regulation (EU) 528/2012:

210g/L hydrogen peroxide (CAS no.: 7722-84-1)

55 g/L peracetic acid (CAS no.: 79-21-0)

Use in PT3 (Biocide in veterinary field). Only for professional use.

### Direction of use\*

1. For cleaning the drinking water system:

- Use Cid 2000 at a dilution of 2%
- Contact time: 4-6 hours
- Rinse thoroughly with potable water afterwards.

2. For acidification and decontamination of the drinking water for consumption by birds and animals of any age:

- Use CID 2000 at a dilution of 300-400 ml per 1000 L of drinking water (0,03-0,04%) for 2 to 3 days per week or every other day, or during high risk periods 3 to 4 consecutive days.

Attention:

- Stop treatment with Cid 2000 24 hours before vaccination
- Don't use Cid 2000 and medicines in the water at the same time
- Only use teflon pumps.

\* Check the Marketing Authorization of your country for more information.

### Specifications

Physical state	Liquid
Appearance	Clear
Colour	Colourless
pH	< 2
Density	ca 1.1 kg/l
Solubility in water	100 %

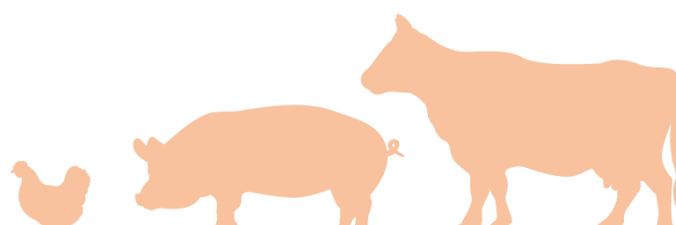

### Storage and Disposal

Store in dry, cool, well-ventilated area. Provide local exhaust or general room ventilation to minimize dust and/or vapour concentrations. Keep container closed when not in use. Minimize exposure to air and light. Dispose of this material and its container to hazardous or special waste collection point. Dispose in a safe manner in accordance with local / national regulations.
